

Rose Data Studio, LLC

Data Career Workshops | Data Analysis Training | Program Evaluation

Who we are

Asya Spears, MS,
Founder and CEO

Rose Data Studio, LLC delivers data visualization and statistical consulting services and training to early-career researchers, foundations, nonprofits, and institutions of higher education.

Founded with the goals of achieving health equity and developing a diverse data workforce, Rose Data Studio emphasizes data literacy, to strengthen clients' capabilities to read, understand, create, and communicate with data aimed at eliminating disparities in the health and education sectors.

Our Founder and CEO, Asya Spears, earned her MS in Biostatistics from UCLA and her BS in Mathematics from Spelman College. She brings 8 years of experience as a statistician, data analyst, and researcher in higher education, health policy analysis & population health settings.
