

Asya Spears

Speaker | Data Talent Developer | STEM Workforce Researcher

"Asya's motivational story of learning data science, finding your own fit, owning your journey, and **thinking outside your box** is a great base to teach career development and data science."

- Northeast Big Data Innovation Hub

Book the "Chief Encouraging Officer" of Data for your summer program in STEM or Public Health

I have used data and insight to creatively approach and pivot my career, from graduating in mathematics from an HBCU to landing industry roles in data. Now, I teach people of all backgrounds foundational data skills they can use to advance equity where they live, work, and play.

Virtual Workshop Topics

Data Storytelling for Science Communication

In this hands-on workshop, learn a 4-step framework to create an insightful graph in Excel

Design your Data Journey

Understand your data identity, identify aligned roles based on the data lifecycle, and craft an approach to lifelong learning with data

Becoming an Entrepreneur

Learn how you can embed entrepreneurship into any stage of your career and hear Asya's journey from math tutor, to photographer, to data coach

Testimonials

"Asya transformed students' outlook on data and how to effectively communicate it. Asya's **style and expertise are unmatched.**"

- UCLA Fielding School of Public Health

"Asya was amazing at engaging a group of early-career public health professionals, many of whom weren't comfortable working with data, and **made data feel less intimidating** to them."

- CA Public Health Corps Training and Pathways Program
